5113 Solenna™

# The Caesarstone® Difference

## Beauty meets performance

### Innovative Designs.

Caesarstone® leads the way with innovative on-trend designs. Whether it's a timeless classic or a breath-taking new design. Caesarstone's range covers all kitchen and interior styles.

### Proven Durability.

Caesarstone®'s high quality surfaces are stain, scratch and heat resistant. Durable and easy to care for, all surfaces come with a lifetime warranty.

### Your Renovation Partner.

We make a complex process simple with support, inspiration and a human touch. We help you with all the details so you can bring your vision to life. Start your journey at **[caesarstone.com.au](https://caesarstone.com.au)** or visit your nearest Caesarstone® showroom.

5310 Brillianza™

# 2023 New Designs

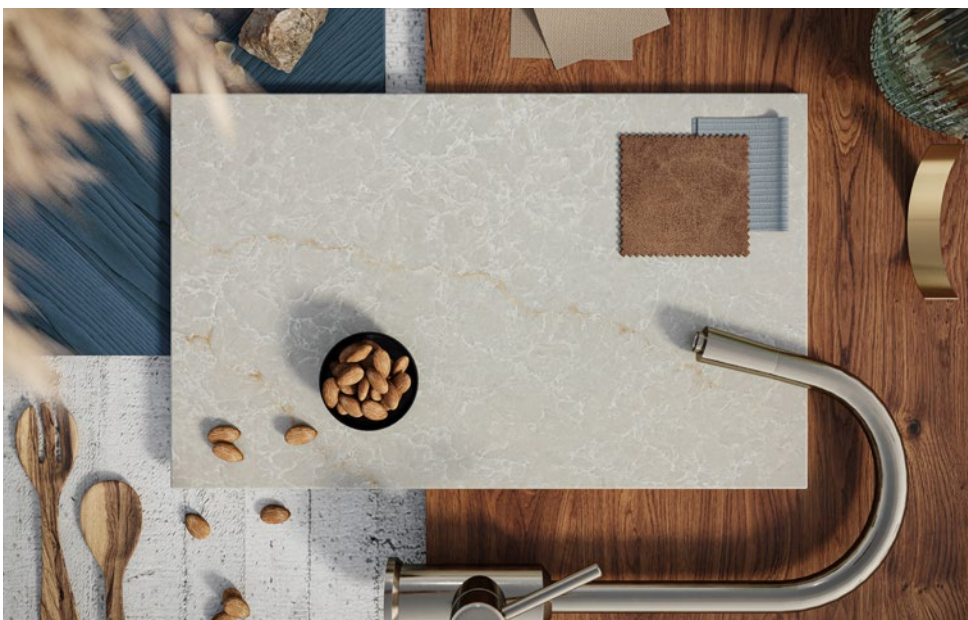

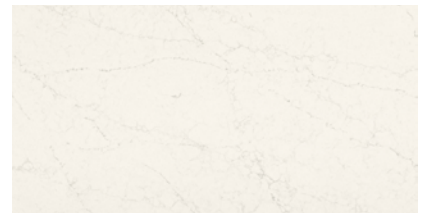

## 5113 Solenna™

On the warmer side of the palette, the bone white base of Solenna™ features prominent veining in raw umber, amber and putty grey. The sweep of veins is random and varying in intensity, bringing added depth to the slab. Available in a Polished finish.

## 5140 Dreamy Carrara™

Inspired by the classic pure white of Carrara marble, Dreamy Carrara™ features a silky white, light-reflective base overlaid with a subtle, irregular tracery of fine veins in earthy greys. Occasional, slightly darker veins, varying in intensity, bring dynamic movement to the overall slab. Available in a Honed finish.

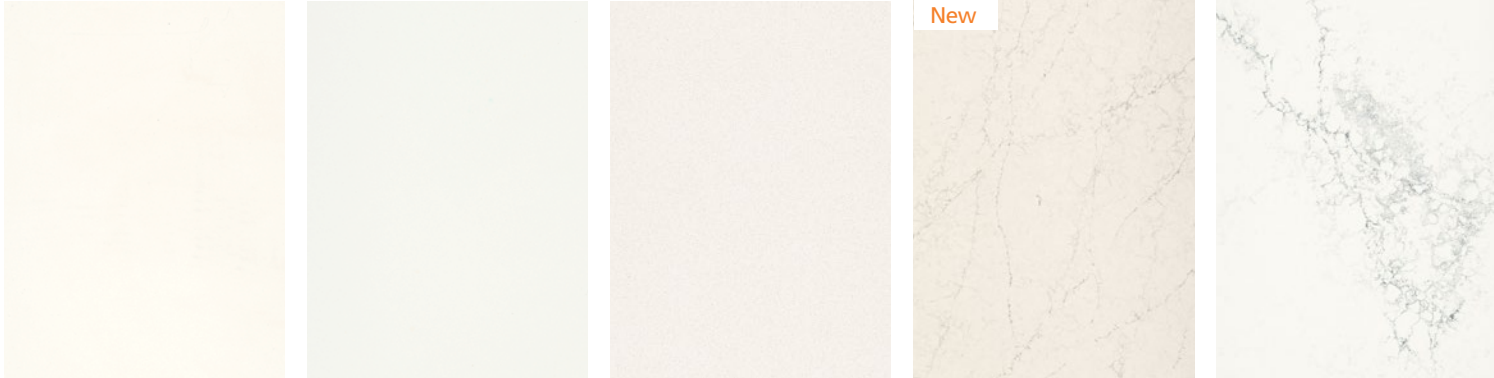

## 5310 Brillianza™

Featuring a luminous, quartzite translucency, Brillianza™ is a complex pastiche of frosty white veins and powder-peach mineral accents atop a lustrous cool grey base. Its natural lustre creates a visual intrigue that changes throughout the day, depending on the light. Available in a Polished finish.

3,240 x 1,640mm (+/-10mm)  
Weight: 236-261 kg (43-48 kg/m²)

New Low Silica formulation

Following significant strides in research and development, Caesarstone® is well advanced in transitioning our entire design collection to an innovative new Caesarstone Mineral™ surface formulation.

Combining unique natural minerals such as Feldspar, with up to 30% recycled materials such as glass and other advanced materials this breakthrough formulation upholds our products remarkable durability, strength, versatility, and aesthetics, while significantly reducing the percentage of crystalline silica to below 40%.

Whilst we transition the range to the low silica formulation, please scan the QR code for up-to-date availability by design. Importantly when selecting a low silica design, please confirm this specification with your supplier.

Design and Colour Selection

Caesarstone Mineral™ Surfaces are made from natural minerals and therefore some variation in colour and aggregate may occur. The colours in this brochure are printed to the highest standard, however, should only be used as an indication, not exact match of actual product colour.

We always recommend making a final colour selection by viewing larger panels in Caesarstone® showrooms or kitchen retail showrooms to fully appreciate the colour and design movement over a larger surface area.

ISO 9001:2000

OHSAS 18001

ISO 14001:2004

Caesarstone® has received worldwide recognition for our commitment to quality, safety and environmental standards, each Caesarstone® surface meets the highest level of international standards.
